Dear Conference Attendee:

Enclosed you will find the final program and the attendance list for the 1968 SREB Summer Conference in Statistics to be held at Montreat, North Carolina, 12–16 August 1968. Registration will be held in the lobby of the Assembly Inn during the late afternoon and early evening on 11 August. If you arrive after that, please see me or Dr. Donald Burdick for your registration.

I look forward to seeing you at the conference.

Sincerely,

[Signature]

MARION R. BRYSON
You have been nominated to attend and participate in the Third Southern Regional Education Board Summer Conference in Statistics, to be held at Montreat, North Carolina on 12-16 August 1968. Enclosed you will find a tentative program of the sessions to be held. As was true in the first two conferences, there will be two sessions daily, one at 9:00 A.M. and one at 7:30 P.M., each lasting 2 1/2 - 3 hours.

This conference is being organized by the SREB Committee on Statistics. We feel that the conference is a most worthwhile function which combines the vacation atmosphere of the mountains of North Carolina with the academic atmosphere of a conference center.

There are a number of accommodations available at Montreat at various prices. The enclosed rate chart will give you an idea of the rates. You will note that the Assembly Inn is on the American Plan, which means that if you choose to stay there your daily charge includes meals. In response to some requests, we attempted to persuade the administration at Montreat to allow people to stay at the Assembly Inn on the European Plan, however, they inform us that this is not possible. If you prefer the European Plan, you must stay in one of the listed hotels, which are a short walk from the Assembly Inn, the meeting room, and the cafeteria.

Enclosed you will also find a registration form for the conference. The registration fee is $30, payable in two parts. Fifteen dollars (non-refundable) should be returned with your registration form, and the remaining fifteen dollars will be due when you register at the conference. Please make checks payable to "SREB Summer Conference in Statistics" and return them to the undersigned.

Reservations for accommodations during the conference should be made directly with the Montreat management by writing to:

Mr. C.A. Stubbs, Manager
Montreat Hotels
Montreat, North Carolina 28757
Most of the attendees in the past have brought their families. You are encouraged to do so again this year, and let them enjoy the vacation-conference along with you.

I look forward to seeing you in Montreat. If you have any questions, please let me know.

Sincerely,

MARION R. BRYSON

MRB:js
Enclosures
The Southern Regional Education Board (SREB) again is sponsoring a summer conference in the field of statistics. The SREB is composed of the governors of fifteen southern states and has as its aim the promotion of cooperation among these states in the field of higher education. The conference is being organized by the SREB Committee on Statistics representing about twenty-five major education institutions in the region. The conference will be held this year at Montreat, North Carolina, from 12 August through 16 August.

Purpose of the Conference

The objective of the conference is to stimulate research and the discussion of research among statisticians, by means of informal meetings. Discussion sessions will occupy mornings and evenings during the conference. Each session will be initiated with a presentation of some research by one of the speakers, leading into a triple discussion period. Afternoons will remain open for conversation in small groups, recreational activities, and so forth.

This type of meeting, with informative discussions conducted leisurely and in a pleasant vacation environment, has been found to encourage interchange and mutual understanding of research ideas and to give motivation and direction to further research progress, in a way not ordinarily possible in other types of meetings.

In order to promote free discussion participants are asked not to use any material presented without explicit authorization by the contributor.

Registration and Reservations

To be most effective the conference is being limited to about fifty or sixty persons, and invitations are being extended only to individuals nominated by the SREB Committee on Statistics. In view of the limited number of conference participants, nominees should submit acceptances no later than 15 July 1967.

The registration fee for the conference is $30. A $15 non-refundable deposit, which will be applied to the registration fee, should accompany the acceptance letter. The deposit should be made by check or money order payable to SREB Summer Conference in Statistics. Acceptances along with deposits should be mailed to: Dr. Marion R. Bryson, Box EM, Duke Station, Durham, North Carolina 27706.

The registration fee is intended to cover expenses incidental to the conference, including a conference fee charged by the Montreat Retreat Association which entitles the family of a person attending a conference at Montreat to use the recreational facilities available such as lake, tennis courts, gymnasium, and so forth. It does not cover golf fees, taxis, laundry, personal expenses or fees for membership in the organized youth club groups.

Reservations for accommodations should be made directly with the Montreat management. In general, plans should be made to arrive Sunday afternoon, 11 August,
with departure sometime Friday afternoon, 16 August. A variety of modestly priced accommodations are available, and the Montreat brochures (including rate chart) should be consulted relative to individual preferences and requirements. Requests for reservations will be handled promptly and with attention to personal needs. They should be directed to Mr. C.A. Stubbs, Manager, Montreat Hotels, Montreat, North Carolina 28757. The name of the conference should be mentioned.

It is recommended, but not required, that insofar as it is possible or economically feasible participants plan to stay and eat at the Assembly Inn, in order to optimize the benefit of the association with each other. The Assembly Inn operates on the American plan with rates ranging from $10.50 to $17.50 per day and half as much for children ten years old or under. Flexible and economic suite arrangements with connecting baths are available. Other possibilities include staying at one of the other lodges and eating in the cafeteria, camping, or renting a cottage.

Conference Site

Montreat is a well-known mountain retreat in North Carolina, affiliated with the Presbyterian church and operated by the Montreat Retreat Association, a North Carolina corporation. It is located about seventeen miles east of Asheville, North Carolina, at the north end of a two-mile road from the town of Black Mountain. Good highways serve the region. Conferees arriving by air at Asheville airport will upon request be met by a Montreat limousine. The fare charged for this service is considerably less than taxi fare.

Many of the Montreat buildings are constructed of native rock against the slopes of the mountains and surround a swimming lake, Lake Susan. In addition to the excellent opportunities for hiking, riding, fishing, swimming, the usual college complement of athletic facilities is available. The atmosphere at Montreat is one of relaxation, vacation, and study.

In addition to being host to numerous conferences, Montreat operates a junior college, camps, and various organized facilities for vacationing groups. Particularly noteworthy are the supervised programs in athletics, crafts, and so forth available at nominal cost to young people from four to eighteen. In addition to the excellent local attractions and activities, located nearby are Mount Mitchell, the Biltmore Estates, Smoky Mountain National Park, and other points of interest.
ACCEPTANCE FORM

TO: Dr. Marion R. Bryson
Box EM Duke Station
Durham, North Carolina 27706

I plan to attend the third SREB Summer Conference in Statistics to be held this year at Montreat, North Carolina, 12-16 August.

I understand that I can make my reservations by writing to the Montreat hotel manager directly.

Enclosed is my check (or money order) in the amount of $15.00 which I understand is a non-refundable deposit on the total conference Registration Fee of $30.00
